SEWING MACHINE.
THE BECK WITH \$20
PORTABLE

Family Sewing Machine,
On 30 Days Trial.

With strength and capacity equal to any re-
garded of cost. The Machine does away with
all complications, and with the convenience of
only two parts (the Needle Arm and Foot),
both simple and strong. It makes the stitch
feeds the Goods, half under the Cloth, fastens
the Seams, sews on Buttons, Gathers and Trims,
Hems and Underbinds. Remember, the move-
ment of only two parts does all the work, which
entirely does away with all the complications
so liable to get out of order, and so often the
source of annoyance to the operator. Besides
the unusual expenditure of force in propelling
them. Our Sewing Machine requires the
assistance of only one hand or even one finger,
thus leaving the right hand entirely at liberty
to ply the wheel, which runs easy and even at
a well balanced wheel, with
NO TOILSOME TREAD OF
THE TREADLE.
Orders promptly filled on receipt of \$20.

PUBLIC LEDGER.
Office: No. 18 Madison Street.
MEMPHIS:
Wednesday Evening, Oct. 22, 1873.

We consider it unnecessary to dis-
cuss the Apparent association of cir-
culation, as not a man, woman or
child in Memphis believes it.

THE SITUATION.
With six or eight hundred yellow fever
patients, and the weather as changeable
and fickle as April clouds, it is not
strange that the mortality list holds its
own. We begin to realize the malignan-
cy of the present epidemic when four
distinct frosts fail to effect any material
abatement. All signs and precedents
fail us. The disease is the only thing
that does not fail. Our best
physicians are smitten; the good
and great, old and young, rich and poor
have fallen, and yet God in His wisdom
has not removed the scourge. His laws,
and Nature's, have been violated when
we permitted the common rules of health
and decency to be set aside, and the
penalty is to pay. The inevitable is
upon us, and we must bear it. When
this will be over is more than ever un-
certain, but when it is over we that sur-
vive will have another opportunity of
retrieving the past. To day we have to
report 37 deaths in 24 hours, 30 of these
from yellow fever—doubtless 33. The
weather has turned warm, and rain is
threatened. After this, perhaps another
frost; but what is a frost without a con-
tinued freeze? People at home dare not
flee, lest they take the disease and be
quarantined to death in some panic
stricken village. Those away are warned
that they dare not come home.
Great emergencies require great sacri-
fices and hazards; we can only stand at
the post of duty and abide the result.
This is not a time to think of making
money or reputation, or promoting per-
sonal interests, but for the exercise of
prudence, wisdom, charity, faith and
resignation to the Divine will. If there
is immunity in anything, it is in good
works and regular employment.

They have a way of stuffing ballot
boxes at Cincinnati that we rather com-
mend—it is done so openly and success-
fully. Yet the authorities take no notice
of it whatever. It happened a few days
ago that they had an election up there
for something—Governor, perhaps—and
by general consent every voter was al-
lowed to drop in something for the relief
of Memphis sufferers. It was a neat,
practical plan, and succeeded. The
names of the donors will never be known
or published, but Memphis got ahead at
the Cincinnati election about 2000, not
votes, but dollars. Well done, noble
Cincinnatians, we can only thank you
for your continued liberality. The
money so collected was forwarded to
Major Busby of the Citizens' Relief
Committee, and will be put where it will
do the most good.

DEATH OF DR. FREEMAN.
Dr. E. J. Freeman died of yellow
fever this morning at 6 o'clock, after an
illness of only four or five days. The
sad news needs but little comment at
our hands now. It sends a pang of
keen regret to hundreds of hearts. Dr.
Freeman came here just after the war,
and entered at once upon a fair practice
of medicine, which was gradually in-
creasing year after year. He was very
quiet in his manners, but had a wide
acquaintance, and was universally re-
spected and esteemed. When the Board
of Health was organized he was ap-
pointed Secretary, and performed the
duties of the responsible office with zeal
and efficiency up to the time of his ill-
ness. He entered the army of the
United States as Assistant Surgeon on
the 1st of July, 1859, and on the 20th of
August, 1861, he was commissioned with
the same rank in the navy of the Con-
federate States. He was medical officer
of the gunboat Polk, at Columbus, Ky.,
in 1861-2, and when that vessel was de-
stroyed was assigned to other duty. In
the service, where each man's capacity
is carefully measured, he stood amongst
the best. His prostration was heard of
by the resident community with serious
concern. Many and anxious were the
inquiries made about him within the last
two days; but the best wishes and prayers
for his recovery were in vain. A wise
Providence has taken him, and we must
bow in submission. The community at
large has sustained a severe loss in the
death of this good and useful citizen.
Steps will doubtless be taken by the
medical fraternity to pay suitable re-
spect to his memory.

To the Editor of the Ledger:
I notice by the morning papers a sug-
gestion from Captain Nat. Green, of the
steamer Richmond, that each boat land-
ing at this point bring ten or more
cords of wood for our suffering
poor. I think the idea a good one, and
know if brought to the notice of the
steamboat fraternity it will be responded
to at once. Boatmen, I look to your
reply. Yours, J. J. MURPHY.

CITY ITEMS.
Judge Ray will open the Probate Court
to-morrow morning at half-past nine
o'clock for business.

At the sale of "Forrest's Campaigns,"
yesterday, at the corner of Madison and
Main streets, J. B. Oliver bought one
volume at \$13; A. B. Crisman one at
\$13; J. P. Trezevant one at \$10; E. C.
Daniel one at \$5; C. McLain one at \$5;
W. R. Cunningham two at \$10; General
Patterson one at \$5; Dr. Blackburn one
at \$5; J. N. Rainey one at \$5. The
total netted \$72. The remainder of the
volumes will be sold at some future day,
due notice of which will be given through
the papers.

A grand dramatic performance by the
Jewish amateurs of the Eureka, Alle-
mania and Phoenix Clubs, take place
this evening at Pike's Opera House,
Cincinnati, for the benefit of the Mem-
phis sufferers, on which occasion the
Marble Heart will be produced. The
Queen City has covered herself with
glory in the cause of humanity and suf-
fering, and among these foremost in the
good work we cannot refrain from
mentioning Mr. Henry Stix, who has
labored faithfully and assiduously in our
behalf.

Still at Home.
John Devoto, the popular grocery
man, corner of Adams and Third streets,
has been at his post all the while, never
having been scared off by yellow fever
or money panics, and is now in receipt
of a fine stock of groceries, to which he
invites the attention of purchasers.
Remember his motto, "The best is the
cheapest."

Thanksgiving Day.
WASHINGTON, October 14.—By the
President of the United States of Amer-
ica, a
PROCLAMATION.

The approaching close of another
year brings with it the occasion for re-
newed thanksgiving and acknowl-
edgment to the Almighty Ruler of the
universe for the unnumbered mercies which
have bestowed upon us. Abundant
harvests have been among the rewards
of industry. With local exceptions
health has been among the blessings en-
joyed. Tranquillity at home and peace
with other nations have prevailed. Frugal
industry is retaining its merited
recognition and its merited rewards
gradually, but under the Providence of
God, surely, as we trust, the nation
is recovering from the lingering results
of a dreadful strife. For these and
all the other mercies vouchsafed, it be-
comes us as a people to return our heart-
felt and grateful acknowledgments, and
with our thanksgiving we may unite our
prayers for the cessation of local and
temporary suffering.

I therefore recommend that on Thurs-
day, the 27th day of November next, the
people meet in their respective places of
worship to make their acknowledgments
to Almighty God for his bounty and his
protection, and to offer up praises for
their continuance.

In witness whereof I have hereunto
set my hand and caused the seal of the
United States to be affixed.
Done at the City of Washington this 14th
day of October, in the year of our
Lord, 1873, and of the Independence
of the United States the ninety-seventh.
By the President: U. S. GRANT.
HAMILTON FISH, Secretary of State.

News for Balloonists.
A rather astonishing bit of chemical
news appears in a Paris letter to the
Turf, Field and Farm. It describes a
discovery related at a secret session of
the Paris Academy of Science, June 13.
The discovery is that hydrogen, hitherto
considered an element, is in reality a
combination of two elements, one of
which is nine times as light as hydro-
gen, and twenty-five times as light as
ordinary illuminating gas. The new
element is called "sharon," meaning
weightless. It will not burn, extin-
guishes flame: is without odor, taste, or
color. The discoverer is M. Lebarre, a
well known French chemist, and his dis-
covery was not an accident, but the re-
sult of a series of successful experi-
ments. The influence of the discovery,
should it be substantiated, upon balloon-
ing, will be manifest. The tremendous
lifting power of sharon will render pos-
sible the employment of metallic bal-
loons, capable of resisting all strains and
shocks, and also of preventing the escape
of gas by exosmosis.

A little shaver was sitting near his
mother, who was picking over raisins,
when she was called out of the room,
and, as she left, said, "Now, sonny,
don't touch any of those raisins when I
am gone." Presently the mother re-
turned and inquired: "Well, Charley,
did you take any raisins?" "No,
mammy." "You know if you did God
saw you." "I know He did, but He
won't tell."

The lace makers of Nottingham in
England are now on a strike, and there
are no signs of settlement of the diffi-
culty as yet. The men, in number about
1800, receive now 3s. 6d. a day for mak-
ing alterations. They demand 6s. per
day. The number of women and child-
ren employed in the trade is 2000.

How to Live Economically.
The problem of how to economize in
living is one that engages the serious at-
tention of a great many people. "Many
a little makes a mickle" was one of
Benjamin Franklin's "Poor Richard"
truisms that summarizes the whole sys-
tem of popular extravagance. If you
wish to save money, economize in little
as well as in large items of expenditure.
For all the household purposes for which
polishing powders, Bath brick and soap
are usually used, excepting the one
thing of washing clothes, Sapollo is by
many times the cheapest article that
can be employed. To say nothing about
its great superiority to all other sub-
stances, it is, on the score of money
alone, by far the cheapest. Remember
this fact and save many dollars a year.

NOTICE.
I HAVE TO RESPECTFULLY CALL UPON
all citizens of Memphis who occupy build-
ings having cellars, to have the same swept
perfectly clean, and then to disinfect them
with a free use of carbolic acid, lime and coal tar.
Any person unable to obtain carbolic acid,
lime and coal tar will be supplied, free
of cost, by calling on me, between the
hours of nine and ten each day, at the corner
of Auction and Front streets, near the
County Jail. All parties making applica-
tion must come supplied with vessels in which
to take away the above disinfectants. I desire
to impress upon all citizens the necessity of
disinfecting their premises by the free use of
carbolic acid and coal tar. It has become
my duty to give these matters my personal at-
tention, and that duty will be performed, and
I assure you that I will personally see that
no one is neglected. My office for the present
will be at the County Jail.
L. W. O'BANNON,
Inspector Board of Health.

NOTICE—DISINFECTANTS.
THROUGH THE KINDNESS OF THE
Chief of Police, I have been enabled to
procure the value of the services of Sergeant
Horn (formerly known as "Sanitary Ser-
geant Rogers"). He will be supplied with
the necessary means to meet the special calls
for disinfectants. Any notice sent to my
office by 5 o'clock in the evening of each day
will be promptly attended to the following
day. I hope that all citizens will send the
street and number of the house that may re-
quire attention, for I will personally see that
no one is neglected. My office for the present
will be at the County Jail.
L. W. O'BANNON,
Inspector Board of Health.

To the Public.
Owing to the prevailing disease, our
place of business has been temporarily closed,
and all communications will reach us ad-
